PHINMA EDUCATION

Name: _Jairus Galang_

Section: _Block 2_ Schedule: _____

Class number: _____

Date: _____

Tell us about your learning experience today. Please take some time to fill-out the "My Learning Tracker". Write your learning targets, learning experience for the session and deliberately plan for the next session.

Date	Learning Target/Topic	Action Plan
What's the date today?	What module # did you do? What were the learning targets? What activities did you do?	What contributed to the quality of your performance today? What will you do next session to maintain your performance or improve it?
Oct 3 2020	Module #, I learned Normal Forms, I answered some activities	scanning notes & Browsing the net for info

FAQs

1. Is it important to normalize database?
   Ans. While database normalization is often a good idea, it's not an absolute requirement. There are some cases where deliberately violating the rules of normalization is a good practice. If you'd like to ensure your database is normalized, start with learning how to put your database into <u>First Normal Form</u>.

KEY TO CORRECTIONS

Activity 3:
1NF:
BRANCH-1 (<u>BranchNo</u>, BranchAddr)
STOCKS-1 (<u>BranchNo</u>, <u>ISBN</u>, Title, Author, Publisher, NumCopies)

2NF:
BRANCH-2(<u>BranchNo</u>, BranchAddr)
STOCKS-2 (<u>BranchNo</u>, <u>ISBN</u>, NumCopies)
